SBCTC Safety and Health Train-the-Trainer Classes

Those taking our Train-the-Trainer classes must train at least 20 workers—on the job or in apprenticeship classes.

Trainer participants will receive:

- Comprehensive SBCTC training curriculum covering: hazard recognition, controls, best practices.
- Presentations from Cal/OSHA & experts from the field.
- Tips to improve teaching skills and become a more effective trainer.
- Peer-to-peer trainer exchange across trades with both labor and management.

To register

Space is first-come, first-served.
Each class is 2 full days.
Go to http://safety.sbctc.org to register online
or to download a printable form.
Forms can be submitted by:
Email: litschorno@sbctc.org
FAX: 916-443-8204

EXCAVATION & TRENCHING HAZARDS

January 29-30 (Sacramento) or February 12-13 (Fresno/Central Valley)

FACT: Excavation and trenching are among the most hazardous construction operations.

FACT: Trench collapses cause dozens of fatalities and hundreds of injuries each year.

FACT: Cave-ins happen suddenly, without warning; an unprotected trench can be an early grave.

SILICA IN CONSTRUCTION

April 7-8 (San Diego) or April 21-22 (Sacramento)

FACT: 2.3 million workers are exposed to silica dust each year; 90% are in the construction industry. [OSHA]

FACT: Each year, hundreds of workers die from silicosis even though it is a 100% preventable disease.

FACT: It only takes a very small amount of airborne silica dust to create a health hazard.

Fall prevention/Rescue planning

May 20-21 (Bay Area) or June 10-11 (Los Angeles area)

FACT: Falls are the #1 cause of death among construction workers.

FACT: Construction fall fatalities have increased each of the last seven years, rising 45% since 2011. (CPWR)

FACT: In 2017, 367 construction workers died from falls to a lower level. (CPWR)
